About The Company

Core System Technologies Sdn Bhd is a leading innovator in the design and development of online and cloud-based systems, websites, offline systems, and mobile applications. Headquartered in Kuching, Sarawak, we primarily operate in Malaysia, offering comprehensive solutions that cater to the evolving needs of the modern business landscape.

With a dedicated team of 17 full-time and 5 part-time professionals, we manage corporate clients' cloud servers and provide expert technical training to ensure seamless system integration and operation. Our commitment to adopting the latest Internet and Cloud technologies drives us to deliver cutting-edge products that empower businesses to thrive in the digital age.

Since the end of 2018, Core System Technologies has expanded its scope to include digital marketing and technology consultancy. We assist businesses in embracing technology to enhance their operations and strategically position themselves in the digital marketplace.

Our mission is to revolutionize the IT industry, starting from Sarawak and extending our impact across Malaysia and Asia. We are committed to driving technological advancement and helping businesses harness the full potential of digital innovation.

Product

Hello Hospitality Solutions offers a transformative Complete Guest Digital Experience Suite, meticulously designed to revolutionize the hospitality industry through cutting-edge digital innovation. This all-encompassing suite integrates key components that address every facet of the guest journey, ensuring a seamless and unforgettable stay.

At the heart of our suite is the Digital Loyalty Program, engineered to reward and retain guests by offering personalized perks and incentives that encourage repeat visits. The Mobile/Web Check-In feature streamlines the arrival process, allowing guests to bypass the front desk and access their rooms effortlessly with just a tap on their devices. The Digital Room Service enhances in-room dining by enabling guests to order food and beverages with unparalleled ease and convenience.

Our suite is anchored by the Room Booking Engine, a robust platform that simplifies the reservation process, allowing guests to book their preferred accommodation with ease. This system seamlessly integrates with our Food & Beverages Order system, offering a cohesive experience from booking to dining.

To further engage guests, we provide Promotional Deals tailored to individual preferences, delivering both value and satisfaction. Lastly, our Guest Feedback System captures real-time feedback, enabling immediate action and fostering continuous improvement in guest services.

Hello Hospitality Solutions' Complete Guest Digital Experience Suite is your gateway to a digitally enhanced hospitality experience, driving loyalty and elevating guest satisfaction to new heights.

aero

aviation technology

Aero Aviation Solutions is dedicated to transforming aviation training, competency assessment, and compliance management through cutting-edge digital solutions. Our platform is designed to streamline learning, enhance workforce competency, and ensure regulatory compliance, making it the go-to solution for aviation organizations striving for excellence in safety and operational efficiency.

At the core of our solutions is the Aero Aviation Learning Management System (Aero LMS), a comprehensive training platform built for self-learning, virtual, and in-person training. It automates course planning, enrolment, assessments, and certification tracking, ensuring seamless compliance with aviation training standards. With real-time progress tracking, reporting, and e-certification issuance, Aero LMS empowers organizations to develop skilled professionals while maintaining regulatory adherence.

Complementing the LMS is the Aero Aviation Competency Assessment System, designed to evaluate, track, and enhance aviation personnel competencies. This system provides structured competency frameworks, skill gap analysis, and real-time assessments, ensuring that aviation professionals meet industry benchmarks. By integrating automated assessment workflows and performance analytics, organizations can make data-driven decisions to improve workforce readiness and compliance.

Currently, we are expanding our solutions with the Aero Aviation Safety Management System and Aero Aviation Audit Management System, reinforcing our vision of a comprehensive safety and compliance platform for the aviation industry.

Aero Aviation Solutions is committed to advancing aviation safety, training, and compliance through innovative digital solutions, helping organizations meet regulatory demands while optimizing operational performance.
